

## **APPENDIX 8**

### **PRIMARY INTERACTIONS WITH NVCA AFTER PRELIMINARY REPORT START UP**

## APPENDIX 8

### INTERACTIONS WITH NVCA DURING THIS PRELIMINARY REPORT PREPARATION

Substantial interactions, i.e. direct meetings with staff, emails and a meeting with NVCA Board of Directors, occurred prior to the actual appointment to prepare this Preliminary Report.

The Scoping Report in **Appendix 4** lists most of these early interactions.

Since the commencement of proceedings on this Preliminary Report, the following further NVCA interactions occurred:

- Start up meeting for the NER with NVCA and MNRF staff to review terms of reference (May 24, 2018).
- Miscellaneous and minor correspondence by the environmental sub-consultant and NVCA during the course of preparation of the NER.
- Correspondence with, and an application to, NVCA for a Section 28 permit to allow entry into the wetlands for soil sampling during the winter period of 2019 (permit not received when requested) (February 2019 period).
- Initial NVCA staff report re the NER on July 10, 2020.
- Engineer's response on September 8, 2020 to this staff report.
- Further NVCA staff report on November 20, 2020 re Engineer's comments
- Further response of Engineer on February 4, 2021 to NVCA
- Further response from NVCA on March 10, 2021.
- Virtual meeting with PowerPoint Presentation by Engineer to NVCA staff and Township on April 6, 2021.
- Power Point Presentation made to NVCA Board on May 28, 2021 by Engineer.

A summary of the comments/concerns of NVCA and the Engineer's responses up to April 6, 2021 are included in **Appendix 9**.

The specific Power Point (PP) presentation made to the Board on May 28, 2021 is included in **Appendix 10**. The material read by the Engineer while describing the slides of the PP are also included in Appendix 10.

An NVCA staff report that was also made to the Board on May 28, 2021 is also included in **Appendix 10**.

The resolution of the NVCA Board after consider the presentations of this Engineer and of their staff is also included in **Appendix 10**.

## APPENDIX 8

### INTERACTIONS WITH NVCA DURING THIS PRELIMINARY REPORT PREPARATION

Substantial interactions, i.e. direct meetings with staff, emails and a meeting with NVCA Board of Directors, occurred prior to the actual appointment to prepare this Preliminary Report.

The Scoping Report as linked in [Appendix 4](#) lists most of these early interactions.

Since the commencement of proceedings on this Preliminary Report, the following further NVCA interactions occurred:

- Start up meeting for the NER with NVCA and MNRF staff to review terms of reference (May 24, 2018).
- Miscellaneous and minor correspondence by the environmental sub-consultant and NVCA during the course of preparation of the NER.
- Correspondence with, and an application to, NVCA for a Section 28 permit to allow entry into the wetlands for soil sampling during February 2019 period (permit not received when requested).
- Initial NVCA staff report re the NER on July 10, 2020.
- Engineer's response on September 8, 2020 to this staff report.
- Further NVCA staff report on November 20, 2020 re Engineer's comments
- Further response of Engineer on February 4, 2021 to NVCA
- Further response from NVCA on March 10, 2021.
- Virtual meeting with PowerPoint Presentation by Engineer to NVCA staff and Township on April 6, 2021.
- Power Point Presentation made to NVCA Board on May 28, 2021 by Engineer.

A summary of the comments/concerns of NVCA and the Engineer's responses prior to April 6, 2021 are included in [Appendix 9](#).

The specific PowerPoint (PP) presentation made to the Board on May 28, 2021 is included in **Appendix 10**. The material read by the Engineer while describing the slides of the PP are also included in Appendix 10.

An NVCA staff report that was also made to the Board on May 28, 2021 is also included in **Appendix 10**.

The resolution of the NVCA Board after consider the presentations of this Engineer and of their staff is also included in **Appendix 10**.
